DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II (claims 12-32 and 38-50) in the reply filed on 12/26/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Amendment to claims 26-32, which were the invention of Group III, now depends directly/indirectly from claim 12 has been noted. The restriction requirement of the last office action is further extended to include following different species.

2. This application contains claims directed to the following patentably distinct species:

I) Species of measuring device as described at paragraph 0021 (see publication of instant application i.e. US 20040212392 A1),

II) Species of measuring device as described at paragraph 0029 (see publication of instant application i.e. US 20040212392 A1),

III) Species of measuring device as described at paragraph 0038 (see publication of instant application i.e. US 20040212392 A1).

The species are independent or distinct because of their structure and uses.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 12 and 38 are appears to be generic.

Art Unit: 2829

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
